Personal Statement:

A proactive and engaged team player, my range of experiences across the hospitality sector has ensured a focus on providing a well-rounded and welcoming environment for clients. I continue to maintain a resilient and persevering attitude to my work.

IT Experience:

University Project for "NHS Family Voice App Design": Worked in team to create an app for end-of-life support for family. This project included creating: UML class, Sequence and Use Case Diagrams alongside Wireframe, Use case, Requirements list and Legal documents such as Diversity, Legal Compliance, Professional Standard Compliance, Social and Ethics Compliance and Sustainability Statement

Java "Itinerary Manager": Created bookkeeping application to enter future events and calculate the costs for them.

Enterprise Project "QuickCare": Participated in ExpoTees in which we showed the health care app to industry representatives. In this project worked on full-stack development, handled reports and I was a scrum master for the team.
